PROJECTS

A Quiz Web App
May 2023 - May 2023
https://quizwhiz.vercel.app/

The quiz web app, created with HTML, CSS, JavaScript, and the Open Trivia API, provides a fun way to test one's knowledge. It integrates modern design elements with interactive capabilities, giving users a smooth experience to respond to questions.

Code Vault Android App
May 2023 - May 2023
https://github.com/Alok-2002/Code_Vault_Android_App/releases/download/android/Code.Vault.apk

Code Vault: An Android app using Java & Android Studio. It employs Base64 to encrypt plain text to ciphertext. The user-friendly interface enables easy encoding/decoding for secure communication. Protect sensitive info effortlessly with Code Vault!

Age Wizard - An Age Calculator

May 2023 - May 2023

https://age-wizard.vercel.app

Age Wizard is an interactive web-based Age Calculator developed using HTML, CSS, and JavaScript. With its sleek design and intuitive user interface, users can effortlessly calculate their age by inputting their birthdate.

Code Vault Windows App

Apr 2023 - May 2023

https://github.com/Alok-2002/Code_Vault_For_Windows/releases/download/CodeVault/CodeVault-WINDOWS_1.5_setup_x64_x86.exe

Code Vault: A Windows app in Python, Tkinter, and Pybase64. Encrypt plain text to ciphertext, ensuring secure communication. User-friendly interface simplifies encoding/decoding. Protect data effortlessly with Code Vault!

Student Management System

Mar 2023 - Apr 2023

https://github.com/Alok-2002/Advanced-Student-Management-System

The Student Management System: Tkinter app with MySQL database. Efficiently manage student records - add, delete, update, search. User-friendly interface for seamless data management.
